## Living Lent is back!

During Lent 2020, we are once again invited as Christians to gather as a community and journey together towards radical change for the climate.

As a global community, we are facing new and significant challenges. How do we respond as Christians? We know that our lifestyles and choices mean we have played a role in damaging creation. But many of us are also desperate to change, as we hope to see creation flourish as God designed. So where do we begin?

We recognise that responding to the climate crisis is not just an activity but a lifestyle. That's why during Lent we're inviting you to take the first step by making a positive commitment towards change.

Together, we will each take on one of six challenges, and in doing so gather together as a dispersed community, to explore the difference personal lifestyle change really makes in response to a global crisis. We will share in daily e-mail reflections, digging deeper into how the Lenten season of questioning and uncertainty might enable us to grapple with the challenges before us.
